

CAREN

protects the Earth

CAREN enables the Institute of Astrophysics in Dushanbe, Tajikistan, to join in data-intensive global scientific efforts to identify, study and monitor asteroids that pose a threat to the Earth

CAREN sets out to create a regional high-capacity internet network for researchers, academics and students across Central Asia in partnership with the national research and education networks (NRENs).

This poster is produced as part of the CAREN3 project, which receives funding from the European Union under Grant Contract DCI-ASIE/2016/372-471. The contents of this document are the sole responsibility of GEANT and can under no circumstances be regarded as reflecting the position of the European Union.
