

CAREN

innovates healthcare

CAREN allows medical doctors in multiple locations to share diagnoses and best practise via high-quality, real-time video for better patient care across Central Asia

CAREN sets out to create a regional high-capacity internet network for researchers, academics and students across Central Asia in partnership with the national research and education networks (NRENs).

This poster is produced as part of the CAREN3 project, which receives funding from the European Union under Grant Contract DCI-ASIE/2016/372-471. The contents of this document are the sole responsibility of GÉANT and can under no circumstances be regarded as reflecting the position of the European Union.
